About the Old Fire Recovery Group

This past year we have been able to do the following:

- Produce 6 newsletters with information for survivors
- Put on or been a part of over 30 workshops
- Testified in front of government hearings regarding insurance
- Worked with local government officials to help survivors through some of the red tape and to craft legislation for future survivors
- Worked with the local VOAD to bring the survivor perspective to organizations preparing for the next disaster

Although our grant has come to an end, we continue to do the following:

- Update our website with new information
- Weekly email updates
- Answer questions via our local phone number

The Old Fire Recovery Group is a team of Old Fire survivors working for a more efficient recovery through obtaining the best information available and providing it at no cost to other fire survivors.
