*Additional topics and themes*

- Construction/rebuilding issues
- The lack of a disaster notification system- knowing where to get the right info.
- Established eligibility guidelines for insurance
- Establishing pre-paid legal fees (\$30/month) to get legal advice as things come up

Flushing out the citizen led approach with questions, such as:

- What worked or didn't work from a government and individual perspective?
- What activities are recommended immediately afterwards?
- What was or was not done that made a difference?
